

# DC400L Dust Containment System

- 1 Advanced Filtration:
  - 3-Stage HEPA filtration
  - Meets OSHA silica rule requirements
  - 99+% filter efficiency
  - Switch-operated reverse pulse filter cleaning system
  - Longopac format allows for near-continuous use without dust exposure
- 2 2 motors provide strong pickup
- 3 Efficient size for big machine performance
- 4 Non-marking over-sized rear wheels
- 5 16-foot 3" hose

## PRODUCT DESCRIPTION

Designed for full isolation of work debris, the DC400L is an excellent choice for dust containment on wood and concrete projects. The HEPA-level triple filtration and longopac bagging system meet the requirements of the OSHA silica dust rule (29 CFR 1926.1153) for concrete floor polishing. Dual motor suction provides powerful pick-up in an efficiently sized machine.

## RECOMMENDED PRODUCTS

The Epoch HD is a 230V dual speed, multi-purpose machine with the muscle to handle the toughest floor jobs.

The Hydrashine driver and diamond disk system is a cost effective solution for polishing concrete floors.

CLS TopShield is a high performance micro-film forming surface treatment that hardens and protects concrete.

## TECHNICAL DATA

**Electrical Motor** 2

**Volts / Amps** 115V, 20a

**Hose** 16.4 ft (5 m) of 3" hose

**Power Cable length** 10 ft (3 m)

**CFM** 212

**Degree of separation, fine filter, EN 60335-2-69, Class M (%)** 99.9%

**Degree of separation, machine, EN 60335-2-69, Appendix A-A, Class H (%)** 99.995%

**Size** 53.5 in x 22 in x 27 in

**Machine Weight** 110 lbs.

**Warranty** Machine: Parts & Labor - 1 yr\*  
\*Excludes consumable wear items

Specifications are subject to change without notice.
